

EXECUTIVE WOMEN'S LEADERSHIP CERTIFICATE PROGRAM

ARE YOU READY TO ADVANCE YOUR CAREER?

COURSE OVERVIEW

This five-course certificate program explores the challenges faced by women in leadership roles and provides solutions. Each instructor strikes a balance between the latest academic research on social norms and expectations and valuable techniques for succeeding at work.

WHAT YOU WILL LEARN

You will learn from expert leaders who make it their business to question your preconceptions, confront your concerns, and turn hurdles into possibilities. Additionally, you will do it all in the company of other driven and fearless women, building a personal and professional network that will serve you well throughout your career.

This certificate equips women in leadership roles with the knowledge needed to identify instances in which gender dimensions may be present in the workplace. The certificate also helps women to devise plans to overcome gender bias and destructive behaviors.

This program is unique because it offers the opportunity for live interaction with expert instructors as well as leaders and other women with similar and different leadership backgrounds.

EXPERT LEADERSHIP INSTRUCTIONAL TEAM

Dr. Loretta Daniels

Dr. Linda Lyons
